

Press Release

Frauenfeld, Switzerland, April 22nd 2020

Sergej Kammerzell to be appointed new CEO of SIS Medical AG

SIS Medical AG (Swiss Interventional Systems), a leading developer, manufacturer and distributor of high-quality and high-performance products in the field of interventional cardiology, appoints Sergej Kammerzell as CEO per May 2020. Kammerzell will lead SIS Medical AG's next growth phase and transformation into a globally operating company and drive its expansion into new, international markets such as the US market. Willi Zwahlen, outgoing CEO and co-founder of SIS Medical AG, will remain with the company during a transition period as Senior Vice President of Sales and will continue his role as a Member of the Board of Directors.

Prior to joining SIS Medical AG, Sergej Kammerzell was Managing Director at Pulsion Medical Systems SE and held several senior positions with a focus on cardiology products. He holds a doctorate in Human Medicine and a Master of Biomedical Engineering from the Ludwig Maximilian University in Munich, Germany, as well as an MBA from the University of Applied Sciences in Reutlingen, Germany.

"We are pleased to welcome Sergej Kammerzell as CEO of SIS Medical AG", says Hubertus Leonhardt, Chairman of the Board of Directors of SIS Medical AG, "He brings both great management and leadership expertise as well as a deep knowledge of the international cardiology markets. We would also like to express our gratitude to outgoing CEO and co-founder Willi Zwahlen for his work of the last 13 years, during which he developed SIS Medical AG into an internationally established and renowned brand."

"With Sergej, we have managed to find a proven expert in the field of cardiology products, who has both the optimal educational background as well as longstanding professional experience. With him, SIS Medical AG is in good hands", says Willi Zwahlen, outgoing CEO and co-founder.

"I am looking forward to working with the SIS Medical AG team. The SIS product portfolio provides solutions for the increasing number of challenging PTCA cases. Particularly for SIS Medical's unique '*OPN - NC Super High Pressure PTCA Balloon*' I see great potential in this area and I am looking forward to expanding the company's global presence, especially in the US market", says Sergej Kammerzell.
